Belgium tops list of nations most vulnerable to hacking

**Cybersecurity 2016:
Belgium Most Vulnerable
To Hacking, Online Attacks,
Report Says**

The number of ransomware incidents has increased worldwide, but – for a yet unknown reason – the Benelux countries have suffered more than usual. **Some 6% of the incidents reported worldwide were located in the Benelux region**, whereas before 2016, this figure hovered between 1% and 2%.

Gentlemen!

Your business is at serious risk .

There is a significant hole in the security system of your company.

We have easily penetrated your network.

You should thank the Lord for being hacked by serious people not some stupid schoolboys or dangerous punks.

They can damage all your important data just for fun.

All files on each host in the network have been encrypted with a strong algorithm

No one can help you to restore files without our special decoder.

If you want to restore your files write to emails (contacts are at the bottom of the sheet)
and attach 2 encrypted files

(Less than 5 Mb each, non-archived and your files should not contain valuable information

(Databases, backups, large excel sheets, etc.))

You will receive decrypted samples and our conditions how to get the decoder.

Please don't forget to write the name of your company in the subject of your e-mail.

You have to pay for decryption in Bitcoins.

The final price depends on how fast you write to us.

Every day of delay will cost you additional BTC

Nothing personal just business

As soon as we get bitcoins you'll get all your decrypted data back.

Moreover you will get instructions how to close the hole in security

and how to avoid such problems in the future

we will recommend you special software that makes the most problems to hackers.

Attention! One more time !

Do not rename encrypted files.

Do not try to decrypt your data using third party software.

P.S. Remember, we are not scammers.

We don't need your files and your information.

But after 2 weeks all your files and keys will be deleted automatically.

Just send a request immediately after infection.

All data will be restored absolutely.

Your warranty - decrypted samples.
